PROJECTS

Yoga Harmony Hub

2023 - 2023

Nature Embrace Yoga is a meticulously crafted web project that

seamlessly combines the tranquility of nature with the

rejuvenating practice of yoga. The website, designed using HTML,

CSS, and JavaScript, offers a serene online space where users can

immerse themselves in the beauty of nature while exploring yoga

practices. From soothing visuals inspired by the natural world to

interactive elements driven by JavaScript, the project aims to

provide a holistic and calming experience, promoting wellness

through the harmonious fusion of technology and mindfulness

Portfolio | WebDesign

2023 - 2023

Step into my interactive portfolio crafted with HTML, CSS, and

JavaScript, where visual aesthetics meet seamless interactivity.

Each section is dynamically designed, engaging visitors with

smooth transitions and captivating animations. From a responsive

layout to visually appealing elements, this web creation showcases my skills, projects, and personality in a user-friendly and visually immersive experience. Explore the intersection of design and technology in a showcase that goes beyond static visuals, inviting you to discover more about my journey and expertise
